THE COALITION

Coalition Of
Culturally
Competent
Providers

The Coalition of Culturally Competent Providers

OUR MISSION

To provide leadership and guidance in ensuring the application of culturally competent best practices in behavioral health policy, practices, programming and research for Philadelphia's African American community.

OUR VISION

The development of a coalition of behavioral health providers who are committed to creating partnerships that facilitate sustainable models of culturally competent policies, practices, programs and services for communities of color.

The Strategic Pillars of The Coalition are:

- Education and Awareness
- Training and Research
- Development, Collaboration and Leadership Development

CCCP is comprised of individual and organizational members with demonstrated:

Expertise in the field of Behavioral Health

Expertise in best practice models for culturally competent care

Ongoing commitment to creating policy and programming that heals communities of color

CCCP utilizes this expertise to:

Create a best practices service delivery model and curricula for culturally competent care

Provide training and technical assistance to other providers in the area of culturally relevant programming

Create collaborative opportunities for the development and sharing of innovative culturally competent practice models for organizations across the behavioral health provider network.
